Your Provincial Choices

The Era and Express takes pleasure in printing the platforms of the three parties contesting this riding as written by the candidates.

By R. W. SCOTT

LIBERAL PROVINCIAL CANDIDATE IN YORK NORTH

My platform in this provincial election is economical, common-sense efficient administration for Ontario. I believe that this can

be best accomplished by the return of Hon. Mitchell F. Hepburn as premier, and this belief is founded on Mr. Hepburn's record of good administration in the past.

Mr. Hepburn, who took office after a long term of Tory rule under Hearst, Ferguson and Henry, made a needed clean-up of provincial affairs and gave us the best government ever enjoyed in Ontario, and legislation of great benefit to all our people and particularly the people of rural districts.

When farmers do well, everyone prospers. The Liberal platform is designed to provide a decent standard of living on our farms. Specifically, we believe in a floor under farm prices to support the prices established during the war years. Evidence of that is found in our policy of subsidizing cheese, bacon and sugar beet production.

The Liberal party believes that organized agriculture will provide the best solution for most farm problems. It is our intention to promote domestic and foreign marketing by helping farmers to organize commodity groups embracing all branches of agriculture.

I most heartily condemn the Drew government for its uncalled-for and high-handed action in failing to pass, in the legislature, the measures providing for bonuses on cheese, hogs, wool, sugar beets, etc., which it did by dissolving parliament, contrary to agreement, before money for these bonuses was passed. The Liberal government will reinstate these bonuses and will make the payments retroactive. Furthermore, we shall agree to extend bonuses to farmers until organized agriculture is strong enough to solve its own marketing problems.

We believe that high-grade uniform farm products are essential for successful marketing in foreign markets, and we undertake to maintain and extend assistance to livestock breeding; to supply at cost basic drugs for the control of common livestock ailments and to provide inoculation and vaccination at a very low cost to the farmers and to veterinarians.

Agricultural education for the young people on the farms is most essential. We will provide funds for two-year courses at Kemptville, Ridgeway and Montpelier schools. We will create a new department of soil conservation at the Ontario Agricultural College.

The future of farming in the province depends on the young people. We will provide aid to young farmers in order that they may start farming in their communities. The Liberal platform recognizes the new stature which young people have earned for themselves during the war, whether their services were contributed in the armed forces or in war industry. I believe that youth has proved itself through acceptance of high responsibility and through its willingness to make every sacrifice in its country's behalf.

Two main provisions are included in our platform, as it affects youth: reduction of the voting age to 18 and creation of a youth department of the provincial government.

Without such legislation, this ridiculous situation will arise: many young men and women who will exercise the vote this year, will be temporarily disfranchised when they are a year older. Everyone in the armed services is regarded by law as of voting age, no matter what their (Page 7, Col. 2)

By MAJ. ALEX. MACKENZIE

PROVINCIAL PROGRESSIVE CONSERVATIVE CANDIDATE FOR YORK NORTH

First, I wish to express my sincerest appreciation and thanks to The Era and Express for the courtesy extended to me in this opportunity of presenting my views to the people of North York.

In making an appeal for election as your representative to the Ontario legislature, I feel that I am well qualified to represent your interests.

Having served on the Woodbridge village council for 15 years, ten of which I have served as reeve, and member of the York county council, I believe I have acquired a knowledge of

public affairs which qualifies me for additional service in the larger field of provincial affairs. I support the Drew administration because it has a particular knowledge of and interest in the service men, the farmer and the industrial worker.

As a veteran of the Great War, I feel I am familiar with the soldiers' problems and possess a sympathy and understanding which can be obtained only on the field of battle.

This is important in our post-war period for one of the greatest problems facing the new legislature will be the part that it must play in the rehabilitation of our brave sons and daughters who have given of the best years of their lives to preserve our freedom and to protect our Canadian way of life.

Ontario is leading the way in Canada in the provision of facilities for the rehabilitation of our men and women who have been fighting our battles overseas.

This province, under Drew leadership, is operating the only established rehabilitation school in Canada, that of the old Normal school on Church St., Toronto, where hundreds of returned service men are now actually in training for either economic or technical courses. I am confident that this training will mean a great deal in the future progress and happiness of our citizens.

By its establishment of more than 300 agricultural committees democratically appointed on the county basis, the Drew government proves that we have had in this province of ours a government which has not only confidence in the farmers' ability to solve their own problems but a government willing to entrust them with the task of doing so.

The constructive research program of the Progressive Conservative party to develop better methods of agriculture, the extension of hydro to the rural areas, the development of high-tension facilities are but a few of the ways the Progressive Conservatives are helping the farmer.

The assumption of a far larger proportion of the cost of education is bound to raise the educational standard of the rural districts by providing long needed additional education services while, at the same time, relieving the farmer of much of the financial burden which education entails.

I endorse the Drew administration because of its advanced labor laws which affect nearly every home in Ontario. Labor is essential and is dignified and is entitled to preferential treatment by its partner, capital.

We must never forget as industrialists grow more responsible, employees will grow more responsible and we will have a more co-operative and happy community.

Industry must be rehumanized and I respectfully submit that the Drew government has been doing just that in its advanced labor legislation. I am a Progressive Conservative along orderly lines. I am a Progressive Conservative be (Page 7, Col. 2)

By REEVE GEO. H. MITCHELL

C.C.F. PROVINCIAL CANDIDATE IN YORK NORTH

On June 4 it will be necessary for the electors of York North to vote for the candidate who they think will be able to give them

the kind of representation that will tend to solve our social and economic evils and which should, in the final analysis, enable the government of the day to make it possible that all who are able and willing to work should be able to do so at a living wage.

Also, that conditions can be improved to the point where the farmer and the small business man may have some definite degree of assurance that prices of merchandise and farm products will be such as to enable them to carry on in a more satisfactory manner than heretofore.

As I see the picture, the only party that is prepared to go far enough to make this possible is the party to which I have the honor to belong, the C.C.F. The reason for this is obvious.

Literally hundreds of thousands of us have, in the past, accepted the assurances of the leaders of both the Liberal and Conservative parties that better legislation would be brought down, and we have very definitely been betrayed not only once but repeatedly. I, personally, do not see how the general public, after having experienced these repeated betrayals by Old Party leaders in the past, can now be inveigled into accepting, once again, the numerous promises being made by these Old Party leaders.

Surely there is a limit to the people's patience, and I am convinced that after the ballots have been counted in York North we will find that large numbers of the people are prepared to give my party an opportunity to keep the promises that are being made by it at the present time, and you may rest assured that insofar as I am concerned, they most certainly will be kept.

Speaking with regard to provincial matters, the C.C.F. party is prepared to see that a sufficient number of hospitals are provided in order that all our citizens may receive the care and attention that they require, which is definitely not the case at the present time.

We intend to progressively reduce the old age pension age, first to 65 years and then to 60 years.

We intend to see that both the farmer and the home-owner are protected against loss of equity in their property owing to circumstances beyond their control; that hydro services shall be extended as quickly as is possible in the rural areas;

That producer marketing boards, controlled by the farmers themselves, be established for all major products, with a strong floor under prices, and farm implements at cost.

We also propose to readjust school grants to the point where there will be a more equitable distribution, particularly in the rural areas where, up to the present, many children have not been able to receive the same educational advantages as have their brothers and sisters in the cities.

It is in such matters as these that we propose to eliminate many of the injustices that have maintained in the past.

With the practical administrative experience that I have already had as reeve of a township of approximately 28,000 people, and as your provincial representative for the last two years, I expect, if re-elected, to make a valuable contribution toward the cause of progress.

This fight in which we are engaged for the betterment of social and economic conditions is just as much your battle as mine, and for that reason I ask that you do all in your power from now until election day to make

PASS BY-LAW SETTING LEVY MONDAY NIGHT

Three by-laws were passed by Newmarket town council Monday night. One by-law gave authority to levy taxes, the second dealt with the sale of town property, and the third confirmed the appointment of Fred Obee as a constable.

The by-law dealing with the tax levy listed the mill rates as follows: public and separate school maintenance and public school debentures, 9.5 mills on the dollar; for county rate, 3.4 mills; payment of debentures, 3.1 mills; relief costs, .2 mills; for general purposes after the deduction of the provincial subsidy of one mill, 17.8 mills.

The by-law also provided for the levy of ten cents per foot frontage on each side of Main St. from Water St. to Huron St., and on Huron St. from Main St. to the railway tracks, to cover the cost of cleaning Main and Huron streets.

The by-law authorizing the sale of lands referred to the sale of lot three on the north side of Gorham St. to Clifford Wilson for \$125, and lot four on the north side of Gorham St. to Orville Rutherford Wilson for \$125.

A request to take a load of earth from a town lot was refused by council since it was felt that it lowered the value of the property. A resolution was passed fixing council meetings for June, July and August on the third Monday of each month.

Acting Chief Constable James Leeder told council he had been receiving a number of complaints about dogs running loose and was told by council to ask dog owners to tie up their dogs. "I have but they say why should my dog be tied up if others are running loose," Chief Leeder said. Chief Leeder was complimented by the council for his work in investigating and clearing up a number of police cases. He was appointed by council as weed inspector.

SUMMER RECREATION ACTIVITY UNDERWAY

A supervised program of games and sports for a period of six weeks, under the direction of Vice-Principal Fred L. Hall, will be sponsored by the Lions club in Newmarket. The program begins July 9 and will include afternoons and some evenings.

Parents have been asked to list the names of children five and a half years or older who will be participating in the program on a form sent them by Mr. Hall. The activities will take place in Lions Park and Stuart Scott playgrounds. Mr. Hall is asking for a quick return of the forms so that some estimate of the number of children who will be participating in the program may be made. A complete schedule of activities will be published later.

There is no fee and no parent is under any obligation if his child participates in the program. It is thought that through such a program, children may have the benefit of organized recreation and play through the summer.

PICKERING COLLEGE STAFF LIONS GUESTS

An address on the history of Pickering College by Headmaster Joseph McCulley, and the singing of selections from Gilbert and Sullivan by the wives of members of the college staff were the highlights of Monday night's Lions club meeting. It was Pickering College night and members of the staff were guests of the club.

Saying that private schools tend to develop a character consistent with their early history and background, Mr. McCulley said Pickering College emphasized "the supreme worthwhileness of the individual." Every effort was made to bring out the best in the individual, he said, through individual education and stress on tolerance and respect for others.

PREACHES IN KINGSTON

Rev. Alexander B. Stein spent the weekend in Kingston where he preached at the 71st anniversary services of the Kingston Congregational church where he was the minister before coming to Newmarket.

Produce, Trade To Limit Said Policy Of Liberal Party

A description of liberalism as understood by the Liberal party and incorporated in that party's principles was said by James A. Gardiner, federal minister of agriculture, at a meeting in Newmarket town hall Saturday night, to include the utmost in production and use of natural resources and the encouragement of trade to the greatest extent possible.

Mr. Gardiner spoke following remarks from J. E. Smith, federal Liberal candidate, and Robt. W. Scott, provincial Liberal candidate. Wm. J. Mulock, son of Col. W. P. Mulock, postmaster general, also spoke. N. L. Mathews, chairman of the meeting and new president of the Liberal Association of North York, said that Col. Mulock, while showing an improvement following the illness that prevented him from contesting the riding, was still in bed and would have to remain there for some time yet on doctor's orders.

Mr. Gardiner said that liberalism, as understood and practised by the party of that name, had its beginning in England following the Napoleonic wars. Liberalism meant, he said, to produce the limit and trade the limit. That principle carried on until the time when Lloyd George brought down his famous budget that included the taxing of unearned increment and applying those taxes to pensions, allowances, and other social measures, Mr. Gardiner stated.

Prime Minister Wm. Lyon Mackenzie King studied Mr. Gardiner's proposals and in 1919, at the convention of the Liberal party, argued their value so convincingly, said the speaker, that on the platform—production and trade, and the application of their excess profits to pensions and other social measures—he was elected leader of the party. "He has followed out that program even more so than in England," said Mr. Gardiner. "That is the same platform that the Liberal party offers today."

Mr. Gardiner said that a Liberal government would continue many of the practices that had been put into effect during the war and he cited as an example, the payment of subsidies on wheat. "The farmer is being paid \$1.25 per bushel for wheat but bread is being sold on a basis of 78 cents per bushel of wheat flour," he declared. "Hogs are being sold at England at 85 shillings per hundredweight but the farmer is being paid 125 shillings per hundredweight. In each case the difference is made up from the dominion treasury and the funds for that treasury are being supplied through excess profits taxes, corporation taxes, sale of bonds, and so on."

TAG DAY NETS \$235

A sum of \$235 was raised by the Navy League tag day on Saturday. The money has been sent to headquarters where it will be used to provide comforts for Canadian merchant navy, Royal Canadian Navy and Sea Cadets. Mrs. C. M. Carter has on hand a number of ditty bags to be filled for sailors and she asks that anyone interested get in touch with her.

125 GIVE BLOOD

One hundred and twenty-five donations were made at the blood donor clinic in Trinity United church Friday. Twenty bronze buttons were awarded for three donations, 16 silver buttons were awarded for six donations, and three gold buttons were awarded for ten donations.

GUEST PREACHER

Rev. H. H. Bingham, D.D., general secretary-treasurer of the Baptist churches of Ontario and Quebec, was guest preacher at the Congregational-Christian church Sunday. The second sermon preached by Dr. Bingham when he was 18, was preached in the same church. He was born at Schomberg, educated in Aurora and was at one time an employee of the Aurora Banner.

ASK VETERANS TO ATTEND

The Newmarket veterans and all those who served in his majesty's forces are requested to attend the Newmarket memorial broadcast dedication service at 4 p.m. on Sunday, June 3. The assembly area is the Congregational-Christian church lawn. The public is invited. President, Alfred Smith, vice-president, Jack Wright.

A program of road building and acceptance of 90 percent of education costs by the province were included in the provincial Liberal program, Robt. W. Scott, provincial Liberal candidate in York North told a meeting at the Newmarket town hall Saturday. He praised the work of the provincial leader, Mitchell T. Hepburn, and said that he was proud to serve under him.

"I feel that Mr. Hepburn is one of the best leaders in Canada," said Mr. Scott. "When Mr. Hepburn entered the provincial house, there was a considerable deficit and when he left, he left a balanced budget. Mr. Hepburn has promised that the province will take over 90 percent of the education costs if Liberal government be placed in power."

J. E. Smith, federal Liberal candidate, said again how regretful he was that Col. W. P. Mulock, postmaster-general, was unable to contest the riding. "As so many public men in years of war," said Mr. Smith, "Bill Mulock sacrificed his health on the altar of public service."

Stating that the real issue before the electors is the choice of a way of life, Mr. Smith urged that this be not obscured by narrow or petty issues on the side. "The decision of the electors on June 11 will determine the future of Canada for years to come," he said.

Saying that there was no place for the viewpoint of youth in either of the other two parties, Wm. J. Mulock said that the Liberal party in Ontario, with its plans for a department of youth and the vote at 18 years, showed that they understood and had the vital interests of youth at heart. "Youth wants action now and it wants a part in that action," he said. "It wants its voice heard in party council. It cannot be so in either of the other two parties."

MEMORIAL BROADCAST DEDICATED SUNDAY

The dedication of the Newmarket memorial broadcast will be held at the Christian church on Sunday afternoon at 4 o'clock. Mayor Dr. L. W. Dales will speak in honor of the veterans of Newmarket and district who have given their lives that freedom might prevail. The guest speaker will be Capt. Iviney of Toronto who has recently returned from overseas service.

The veterans of Newmarket and district will rally at this memorial service of dedication and President Alf. Smith will speak on behalf of the returning veterans. Weather permitting, the service will be held on the church lawn, otherwise in the church. Prayer will be offered by Rev. Dr. G. H. Johnson, president of the Ministerial Association.

ELECTION ISSUE

There is usually some similarity in the platforms of opposing political parties no matter how great their differences on major issues. There are always the assurances that the farmer will be given "the break" he has long deserved, that the working man will receive far more consideration than he has in the past. But it is seldom that there has been such complete agreement of aims in political platforms as has been witnessed during this campaign.

All three parties are agreed on the necessity of extensive rehabilitation programs, of advanced social and labor legislation, of continuing reforms in education, the need of markets, not to mention a host of lesser proposals such as road building programs and so on. The only difference there seems to be is one of how these platforms are to be implemented, but this difference has become so important that it has aroused a feeling of antagonism never before experienced to the extent it is experienced now.

One glance at the literature issued by both sides is sufficient to confirm this. Literature that is literally a disgrace to the country has passed through the mails under the guise of "reasoned warnings" and "serious disclosures." Such trash is not worth the paper it is printed on. No one party is to be blamed; we believe that all share to some extent the responsibility of having brought about the condition and all will share the results of it in the form of distrust by the voters.

This flood of baseless charge and counter-charge, coming as it does at a time when objectivity is the first requisite, has done much to confuse the issues at stake in the elections. It seems to us that the real issue facing the electors is whether the economic system that has been traditional in this country will be continued or whether it will be replaced by a new system, whether we will have free enterprise or state control.

To our mind, too much has been said about the faults of both systems and not enough about their virtues. Not all big industries can be as bad as they are painted nor can all C.C.F. principles be as extreme as some portray. It is no advantage to the elector, however, to ply him until he is

gasping for breath with pamphlets and treatises showing all that is beautiful in one system and nothing but evil of the other. In the final analysis, he is the one who makes the decision and if he is permitted to do so on the merits of each side as presented by the candidates, then all will profit.

It is to the credit of the candidates in this riding that while their national party associations have apparently overlooked this fact in their enthusiasm, they have conducted thus far and to the best of our knowledge, a campaign in which the elector is treated with the respect due him as an intelligent and loyal citizen wishing to choose on merit, not as an unfortunate adjunct to the candidate's more important task of getting elected.

In Passing

Vote as you like but vote.

The battle of dog owners vs non-dog owners showed signs of being renewed at Newmarket town council meeting Monday when Acting Chief Constable Jas. Leader told the council of the complaints he had been receiving about dogs running over gardens and other property. The councillors recalled previous attempts to deal with this problem by ordering dogs to be tied up and the resulting criticism they were subjected to by the dog owners.

Whether or not the correct way to deal with the problem is to order all dogs tied up is a much debated question. The fact does remain that loose dogs are in many cases a nuisance, especially on garbage days when cans are overturned and their contents spread, about the lawns and sidewalks. The least a dog owner can do is to satisfy himself that his own dog is not responsible and if it is, to take steps himself to prevent his dog from being a nuisance.

One thing about an election campaign is that through posters and bills, a splash of color is added to otherwise weather-worn and unbecoming lamp posts. In recent weeks, some beauties have been posted, two-color jobs which, before they were torn down, gave side streets the appearance of an open air art show, although there was a certain monotony in that the same likenesses of candidate and party leader always appeared.

At the time of writing, the charges that Premier George Drew, Progressive Conservative leader in Ontario, had maintained a secret police force have been given considerable publicity. The charges have been made by E. B. Joliffe, C.C.F. Ontario leader. A Royal Commission has been appointed to investigate the truth of the charges.

It is to be hoped that the investigation will be as speedy as possible so that the charges may either be proven true or false. The enormity of the charges leaves no room for delay.

Verbal charges, even though accompanied by assurances of written guarantees, and verbal denials are not sufficient. The truth or falseness of the charges must be established beyond any question. That much is owing to the electors of Ontario.

Security with Freedom!

Your Vote on June 11th can bring lasting security to your work, your home, your family!

Security for your WORK

Here are some of the definite, practical steps taken by the Liberal Government to give security to home and family by assuring well-paid post-war jobs for everyone:

For Veterans — The most generous plan of any United Nation to get returned men started in the type of work each of them chooses. The Liberal Government is determined that every man and woman coming home to Canada shall return to the land of greatest opportunity in the world.

For Workers — About a third of all Canadians depend on exports for their livelihood. Liberal plans provide for increasing our exports 60% in value over those of 1939.

For Farmers — Acting on the belief that all Canadians prosper when farmers do, the Liberal Government has arranged that they can improve their farms and equipment under a new loan plan and has arranged to put a floor under the prices of farm and fishery products.

To stimulate employment for all, the Liberal Government has created a special Department of Reconstruction which is now in operation and which will co-ordinate private and public enterprise.

Security for your HOME

The Liberals believe that the home is the heart of the nation. They aim to give Canadians every possible facility to build and furnish better homes! With Government assistance you can build a home in the country, town or city. This will make jobs for the building trades, and those who make building supplies—and those who manufacture household equipment and furniture.

New Homes for Canadians — The Liberal Government's new \$400,000,000 National

Housing Act, now on the statute books, enables hundreds of thousands of Canadians to get money at low interest and on long, generous terms to build, renovate or enlarge their own homes. Now that Germany is defeated, plans are already in operation for at least 50,000 dwellings.

Other practical, workable measures for the security of your home are the Liberal Government's laws for Unemployment Insurance and Liberal Old Age Pensions.

The Liberals believe in doing what can be done, as soon as it can be done. If returned to power on June 11th, they will carry on and expand the sound, constructive work already started.

Security for your FAMILY

Family Allowances — Starting in July, parents who benefit least from income tax exemptions will receive Family Allowance cheques every month to help them get better food, clothing, shelter and education for their children so they can grow into healthy, vigorous Canadian citizens. These cheques will amount to between \$200,000,000 and \$250,000,000 a year. At direct spending power, this will do much to help in achieving the Liberals' objective of full employment.

Health — A National Health Plan will ensure that everybody shall be taken care of while they are sick and the best measures medical science can devise shall be employed to prevent disease.

Despite the efforts of Drew, Bruce, Bracken and other reactionaries, the Liberals are determined that human interests, the needs of men, shall be placed before "business as usual".

The Liberals have faith in Canada, a united country, and in their ability to continue to build, with your support, a more abundant life and greater opportunities for Canadians.

Help build this new order of security with freedom. Protect the social gains already made. Vote for your Liberal candidate on June 11th.

"A chain is only as strong as its weakest link"—and a poultry feed is only as efficient as the level of each of its protective ingredients is maintained.

These protective ingredients include a variety of proteins, minerals and vitamins, each of which has a particular responsibility in maintaining the health of your flock.

For example, upon the calcium and phosphorus content depends the quality of bone, the health and the growth of the birds. Vitamin A builds immunity to respiratory diseases and Vitamin D is essential to the prevention of rickets. The health of your growing birds is dependent upon receiving an adequate supply of these and other essentials. That's why more and more poultrymen every year are changing over to SHUR-GAIN 16% GROWING MASH — for SHUR-GAIN GROWING MASH is made to rigid specifications of quality, purity and accuracy of analysis.

The needs of growing birds have been carefully analyzed and the optimum amount of these requirements have been skillfully combined in a fresh, palatable, attractive growing mash, that's made close to your farm, to save you money! More Emphasis On Oral English Teaching Urged

By VICE-PRINCIPAL EVELYN DENNE
Stuart Scott School

On April 3 and 4 I attended the urban teachers' section and general public school department of the Ontario Educational Association convention. The object of our section is to advance in every way the interest of education in general and the urban education in particular, through the discussion of problems of interest to urban teachers and the transaction of business in relation to the section.

W. K. F. Kendrick, of the Toronto normal school staff, in less than an hour, gave us a refresher course in English, taking as his topic, "We Struggle with the Course in English." Speech is a learned activity, and it can be poorly learned. The process of learning is largely one of imitation. The primary teacher has a golden opportunity to begin the royal road to beautiful speech. The speaker stressed the need for more oral English. At the present there are two main objectives to be considered in planning the future policy of speech education: (1) To give all children, regardless of race, creed, wealth or social standing equal opportunities to acquire an acceptable standard of spoken English. (2) To make the standard of spoken English compatible with that of other academic subjects.

Mr. Kendrick emphasized the fact that synthesis should receive more stress than analysis. After school days we shall not be called upon to select verbs, phrases, etc., but rather must we know how to use these in acceptable oral or written form.

Success in the teaching of literature depends upon the teacher's enthusiasm. Our pupils' response equals what we put into the lesson. Here again oral work was placed first.

The importance of related lessons was stressed. Each received a suggested plan of work for a period of one month showing the co-relation of literature, science, composition, music, art and household science to the core subject, English.

Teachers were urged to hand in questions to be used in the panel discussion. Much to our disappointment this part of the program was omitted. A member of the panel, however, made the following statement:

Kidney Acids Rob Your Rest

Many people never seem to get a good night's rest. They turn and toss—lie awake and count sheep. Often they blame it on "nerves" when it may be their kidneys. Healthy kidneys filter poisons from the blood. If they are faulty and fail, poisons stay in the system and sleeplessness, headache, backache often follow. If you don't sleep well, try Dodd's Kidney Pills—few half a century the favorite remedy. 103

Dodd's Kidney Pills

ing statement: Reading maketh the full man, writing the exact man, but conference maketh the ready man. In the world that the present-day children will inherit there will be greater demand for ready men and women than for any other type. It is the teacher's responsibility to see that we give pupils every opportunity to be ready to think clearly, to act wisely, and to speak with dignity, authority and truth.

On Tuesday afternoon Hart House theatre was filled to capacity to hear the address delivered by the Hon. G. A. Drew, premier and minister of education. The speaker's theme was the emphasis that must be placed upon the development of desirable human qualities. It is up to the teacher, the home and the administrative officials to put across the present essentials such as conscious assumption of responsibility and intensity of effort. The fundamental duty of the school is to teach good citizenship. Prospective teachers should be the most capable and most promising young people graduating from our colleges and schools. Teachers must possess the fire that kindleth and must arouse in pupils the desire to develop to the best of their abilities.

I was pleased to hear a very favorable report of the religious education committee. The speaker stated that a curriculum without Bible instruction is a curriculum which is out of balance. The course does not aim to turn out 100 percent saints, but it does aim to give children a knowledge of Bible history so that they may read or hear Biblical passages with some understanding. While it is true that religion, economics, politics and morals are controversial subjects it is better to have them taught than it is to have youth learning about them from unreliable sources or remain completely in ignorance of them.

We were favored by a very pleasing address "Canada and the Girl Guides" delivered by the field secretary for Ontario. The speaker insisted that education for leisure is of greater importance today than it was during the mid-nineteenth century when people who lived outside the larger cities were dependent upon their own or neighbors' resources for entertainment. Our education for leisure must encourage mental as well as manual skills. The Guide's training consists in making her thoughtful of others, self-restrained, tolerant, valiant and unselfish. She should learn that the highest satisfaction one can obtain is derived from serving others. The speaker, of course, was appealing for teachers to take more interest in this great movement. She urged progressive education of all workers with youth. If idealism is the badge of youth, stagnation is too often the characteristic of maturity. Over and over again, in every profession, we see folk who have lost the lofty idealism with which they set out to serve their fellows. They have settled into a comfortable complacency from which they hate to be dislodged. The commissioner urged teachers to take more part in community welfare.

KESWICK

(May 23)

Mr. and Mrs. John Pollock, Inglehart, were weekend guests of Mr. and Mrs. Freeman Pollock. Mr. Pollock, who was in his 92nd year, had made his home with his daughter, Mrs. Brock Currie (Dorothy), at Gore Bay, Manitoulin Is., for some years past, although he spent part of the summer, until his health failed, at the Keswick home.

Mr. Pollock was born in North Gwillimbury and spent the greater part of his life in Keswick. His wife, the former Linda Crittenden, died several years ago.

Besides his daughter, Mrs. Currie, his son, Ernest Pollock, Sutton, survives. The pallbearers were nephews. Rev. C. E. Fockler of Maple conducted the funeral service.

Attending from other points were Mrs. John Currie and mother of Toronto, Mr. Lee Pollock, Toronto, Mr. and Mrs. John Pollock, Inglehart, Mrs. Wm. Lloyd and Mrs. Herring, Agincourt and others.

Mrs. Gordon Lapp, Mrs. Frank Marritt and Miss Joy Marritt gave a mock radio broadcast on missionary work in Burma. Mrs. Marritt was the broadcaster. Mrs. Lapp gave news flashes and Miss Marritt was interviewed.

Mrs. Perry Winch, convener of citizenship and temperance, led an impressive thanksgiving worship service for the Allied victory in Europe. She also gave an instructive reading on temperance.

With Rev. L. S. Paisley of Stroud as the guest speaker, Sunday-school anniversary services were held in the United church last Sunday. Mr. Paisley's messages were of great interest to both old and young. He was assisted in the services by the superintendent, Frank Marritt. In the morning a choir of children rendered two numbers.

FO Edwin F. Marritt arrived home from overseas last Thursday. He left England May 2 and, with his shipmates, celebrated V-E Day in mid-ocean. He was met in Toronto by his parents and sisters.

The Women's Missionary Society met at the home of Mrs. George White on May 10. Mrs. Harold Pollard brought an in-

spiring report from the recent Toronto conference school for leaders in Toronto.

Rev. and Mrs. L. S. Paisley and Mrs. Paisley's mother, Mrs. Jack, were dinner guests of Mr. Paisley's sister, Mrs. Erwin Winch, on Sunday. Then they were overnight guests of Mrs. Paisley's cousin, Mrs. P. W. Mahoney. Rev. and Mrs. Gordon Lapp and Martin were at Lefroy on Sunday morning where Mr. Lapp took Mr. Paisley's service. In the afternoon they were at Edgely, on the Maple charge, where Mr. Lapp conducted service.

HONOR BRIDE-TO-BE

A shower was held at the home of Mrs. Arthur Robinson, Joseph St., on Wednesday evening for Miss Eldred Woodruff, a bride of next month.

As the bride-to-be entered the house the guests began to sing "Here comes the bride."

The bride-to-be was seated on a decorated chair from which was extended pink and white streamers to a basket of gifts. Streamers fell from the ceiling and directly over the bride's chair was a concealed bag of confetti.

Just before Miss Woodruff opened her gifts, the bag was broken and she was covered with confetti. Many lovely and useful gifts were received by her.

A social hour was spent playing games after which refreshments were served. About 25 friends were present.

TOM is in the pink... DICK has retired HARRY will go places

Tom knows something about stormy weather, but he feels in the pink and his mind is at ease because his life insurance, which protects his loved ones, has weathered the strains of war and epidemics. The reserves behind his policies are regulated by law and so stand guard that even in times of the gravest stress he knows he is secure.

Dick knew nothing about life insurance reserves when he took on his first policy as a young man. But now that he has retired, he knows that the security he enjoys comes largely from the monthly income provided from his insurance—protected by reserves accumulated from his past premium payments.

Harry is an up-and-coming fellow who needs only opportunity to make good. He may not know it, but his own life insurance and the premiums of several million others will keep providing him and others with opportunities for years to come. Life insurance funds are invested in undertakings from coast to coast that provide employment for multitudes of people.

LET NO ONE MISLEAD YOU!

Life Insurance policy reserves represent premium dollars accumulated at interest for policyholders by life insurance companies as the necessary provision against the day when policies become claims by death, maturity or surrender. Let no one mislead you about the nature of these funds. They are NOT "surplus funds" nor do they represent "profits" in any sense of the word. Policy reserves are the exact measure of the total funds which must be held for policyholders, to be paid to them when due.

It is good citizenship to own LIFE INSURANCE

In Memoriam

Hadden—In loving memory of our dear mother, Mrs. Wm. Hadden, who passed away May 29, 1938.

In our hearts there is a picture More precious than silver or gold.
It's a picture of you, dear mother, Whose memories will never grow old.
Lovingly remembered by Della and Ran.

Hadden—In loving memory of my dear daughter, Retta, who passed away May 29, 1938.

Deep in the heart lies a picture Of a loved one laid to rest; In memory's frame we shall keep it, Because she was one of the best.
Ever remembered by her mother.

Hadden—In loving memory of Retta.
Too dearly loved to be forgotten.
Ever remembered by sister, Gertie, and family.

Marles—In loving memory of our dear son and brother, Orris Arthur Marles, who passed away May 30, 1943.

Two years have passed, dear Arthur,
Since you were called away.
How well do we remember That sad and weary day.
You suffered much, you murmured not,
We watched you day by day,

actual age. Unless we change the law, these 18 and 19 year old voters will lose their franchise the minute they are discharged from the services.

As for the youth department, it will have a capable minister of its own and be equipped to deal with all young people's affairs. It will co-ordinate the work of existing departments so far as youth is concerned and it will take jurisdiction over the Ontario Athletic Commission. The Commission's good work in promoting teen-age sports will be very largely extended but it will continue to operate through service clubs and other organizations which have pioneered their own youth programs. A similar policy will be followed with respect to recreation centres which will provide meeting places for young people and sponsor entertainment and cultural opportunity.

We call the new department "An Open Door For Youth." It seems certain to live up to the title.

Family allowances are federal legislation but George Drew's denunciation of them projected them into the provincial sphere last summer, and there have been repeated references to them during and since legislature session. Accordingly, the following information is provided:

As Mr. Hepburn has remarked, the Progressive Conservative leader as "almost hysterical" in his reference to the allowances made during a radio speech last August, when he said: "I assure you that the government of Ontario intends to do everything within its power to make sure that this iniquitous bill does not come into effect."

I favor the family allowance act and all other legislation tending to bring a greater measure of social security to our people.

An essential plank of my platform is service to the people of the riding and my promise if elected, is to do my best to serve the electors of North York as a representative in the legislature.

cause I heartily endorse George Drew and his program for progress for the people of our province.

Only one party in Ontario, the Progressive Conservative party, is in a position to present something beyond the blueprint stage. That blueprint contains 22 points and I am sure the electors are aware of all that it means by way of future progress for our province.

In conclusion, might I appeal to all citizens to consider carefully the issues and then cast their vote for a sane responsible government.

sure that I am again elected as your representative at Queen's Park.

Do not be confused by the many conflicting statements that are being made by political leaders. The issue is clear-cut—either you vote for me as a representative of a truly progressive party, or you vote for a representative of one of the Old Parties which has been weighed in the balances and found wanting!

Jos. Bingham, D.C.M., Is Cited For Bravery

The following is the citation for Cpl. Joseph Bingham, Ballantrae, who was awarded the D.C.M. recently. His mother, Mrs. Ellen Bingham, resides at Ballantrae.

"The 21 Canadian Armored regiment, Governor General's Foot Guards, on Feb. 26, 1945, was ordered to assault, capture and hold the high ground north-east of Udem, Holland. This ground was a dominating feature, commanding Udem, and the surrounding terrain was comparatively flat. No. 3 Squadron undertook to assault this feature when No. 2 Squadron, who had been originally ordered to carry out the task, became bogged down and came under very heavy anti-tank fire.

"Cpl. Joseph Bingham was a crew commander in one of the tanks in No. 3 Squadron. On the approach to the start line minor defects appeared in his tank which at any moment might have rendered it useless for fighting. Although fully aware of this, Bingham pressed forward to the attack crossing the start line with a section of infantry riding on the tank.

"Almost immediately the troop came under heavy anti-tank fire and the troop leader's tank was hit and brewed. Ordering the infantry to ground cover this non-commissioned officer manoeuvred his tank into a hull-down position and searched for the enemy guns by speculative shooting. One enemy anti-tank gun fired, obtaining a glancing strike on Cpl. Bingham's tank temporarily sealing the driver's hatch.

"By calm and speedy action this non-commissioned officer rallied his shaken crew and brought fire to bear on the enemy gun, forcing it to withdraw. This enabled the remainder of the troop to press forward up the slope and Bingham maintained a heavy fire from all his weapons until they had passed.

ed out of sight. He then moved forward towards the objective in an effort to rejoin his troop.

"On the way an infantry officer was seen waving frantically from a slit trench slightly to his right and without hesitation Bingham halted, dismounted and crossed the bullet swept ground on foot. The officer and men were members of the Lake Superior Regiment (motor) and were being pinned down by small arms fire coming from the house. Returning to his tank, Cpl. Bingham engaged the house with 75 mm. high explosives and within a few seconds the enemy, five in number, came out with hands upraised and the infantry were able to continue on the forward objective.

"By this time Cpl. Bingham was far to the rear and complete darkness had descended. Fully realizing that every tank, gun and man would be required to hold the objective, he ordered his tank forward to the high ground. On arrival he became bogged down at such an angle that it was impossible to traverse the turret and thus to fight the tanks.

"Cpl. Bingham ordered his crew to ground and dismounting two Browning machine guns he dug in in a defensive role. Two enemy counter attacks developed against No. 3 Squadron's position during the night but Cpl. Bingham and his crew kept up a withering fire from their ground positions and greatly aided in inflicting casualties and driving enemy from the feature.

"Throughout this operation the courage, coolness under fire and initiative of this non-commissioned officer was of the highest calibre. His crew, encouraged by his superb example and leadership, was able to fight their tank in a most outstanding manner, assisting the infantry forward, accounting for numerous enemy casualties, and aiding in no small measure in the capture of this vital high ground."

**MAGISTRATE'S COURT
FINED \$25 ON CHARGE
OF THEFT OF TRICYCLE**

"This is an unusual thing for me to do, but in the circumstances I think that I am justified in being lenient," Magistrate W. F. Woodliffe told James Fullager of Lloyd-

town in magistrate's court here on May 22 when the latter pleaded guilty to a charge of stealing a tricycle valued at \$7.50 belonging to Clifton Graham, also of Lloydtown. His worship imposed a fine of \$25 and costs of \$14.50 on the defendant and ordered him to return the stolen article.

According to Mr. Graham, the tricycle had been in his backyard

on the evening of April 27 and was discovered missing by his young son the following morning. He said he searched the neighborhood but was unable to recover his son's playtoy. The witness identified the tricycle presented as exhibit in court as the one stolen from his yard.

County Constable Ronald Watt told his worship that on May 15, as a result of information, he searched the defendant's premises under the authority of a search warrant and found the tricycle. At first the witness stated the defendant denied that he had stolen the tricycle and said that he had bought it second hand. Later he admitted the theft.

In his defence Mr. Fullager told his worship that his wife was ill and his children difficult to manage. He wanted a tricycle for them but was unable to purchase one, he said. He admitted that he was ashamed of the impulse which prompted him to take the tricycle from Mr. Graham's yard.

"This is quite the meanest thing that I have heard of," commented Magistrate Woodliffe. After a week's adjournment in order to give the defendant the opportunity to prove his right to pasture cows on his sister's land, Magistrate Woodliffe continued hearing the evidence. The case was that of Walter Comer, North Gwillimbury township, who was charged with assaulting John Chappelle, North Gwillimbury, when the latter attempted to put

his cows in the land in question. Both Mr. Chappelle and Mr. Comer contended that they had rented the pasture from Mr. Comer's sister, Mrs. Mary Morton. The accused denied Mr. Chappelle's accusation that he had struck the latter when he attempted to put the cows in the pasture. On the stand last week Mrs. Morton emphatically denied that she had rented the pasture to Mr. Comer or his son.

Called to the stand in her husband's defence Mrs. Comer asserted that her sister-in-law had written a letter to her son last August telling him that he could rent the field. She stated that the letter had been mislaid. Her son, Albert Comer, corroborated his mother's testimony and stated that he had read the letter at the time, in which Mrs. Morton said that he could rent the land for \$20 for the year. He was also required to pay the taxes.

"In this case apparently there is some dispute as to the right to the pasture land and this assault arose out of that dispute," commented his worship. "I am therefore dismissing the charge. The rights of these people will have to be taken up in civil court."

Pleading guilty to a charge of careless driving on Main St. in Newmarket, on May 10, Marshall Woodcock, Bradford, was fined \$5 and costs. Constable Stuart Martin, Newmarket, told his worship that he had observed the accused at about 12.50 p.m., driving with four persons in the front seat. He stated that the defendant's vision

was obscured by these passengers. Other cases disposed of by Magistrate Woodliffe were: E. Campbell, fined \$15 and costs and Ernest Osborne, fined \$17 and costs on charges of exceeding the speed limit on Yonge St. Both defendants, whose homes are in Toronto, were fined by Provincial Constable William A. Melbourne.

There were six motorists fined one dollar and costs on charges of illegal parking. They were: Harold Hare, Keswick, Strathdee Transport Ltd., Toronto, Perry Welch, Keswick, Ralph Watson, Queenville, and Joseph Orblon and Alton Scott, both of Aurora. In the first two cases Constable Burke of Sutton laid the information. In the second two instances Acting Chief Constable James Leader of Newmarket laid the charges. Constable Stuart Martin laid the information in the last two charges.

**Denies C.C.F. To Take
Over Farmers' Land**

Major A. H. Woods, C.C.F. federal candidate, speaking at public meetings in Mount Albert on May 21, Queensville on May 22, and Belhaven on May 23, stated at each of the three meetings that the assertion that a C.C.F. government would take over the farms or prohibit farmers from passing their farms on to their sons was ridiculous.

Major Woods pointed out that the C.C.F. manifesto "distinctly states that the family farm is the basis of Canadian agriculture" and, the speaker declared, "as far as the C.C.F. is concerned, it will remain so."

Major Woods said that in Saskatchewan, the C.C.F. had won 47 of the 52 seats in the provincial legislature and had formed a government in that province. Surely, the speaker said, the farmers of Saskatchewan would not have elected and participated in a government that planned to take away their property. The majority of the C.C.F. members of the Saskatchewan legislature are farmers and they have already passed legislation which protects the farmers' property from the mortgage companies, he said. The C.C.F., said Major Woods, in conclusion, aims to provide more people with more property, not less.

A Three Minute Comparison A Glimpse at the Records of the Three Parties

C.C.F.

LABOR: The C.C.F., with the assistance of Hepburn, formed the now famous Socialist-Communist-Hepburn block, interfered to the limit with the Progressive Conservative labor plans and finally forced an election. They offer government monopoly and regimentation ... contrary to the best interests of labor.

THE FARMER: Here again this socialist group, frightened of good legislation, delayed and hampered as much as possible, the constructive program of the government. They offer government monopoly and regimentation, contrary to the best interests of the farmer.

CREDIT: The C.C.F. government in Saskatchewan tried for 30 days to dispose of one million dollars in bonds of their own creation. The time had to be extended. After another 30 days they managed to dispose of them, within the limits of that province, by methods best known to themselves but quite well known to others. Under the C.C.F., Ontario's credit would be destroyed, contrary to the best interests of labor, the farmer and industry.

PROMISES: The C.C.F. will offer everything and anything in order that they may set up a system of state socialism under which labor, the farmer, small business and industry will be handed over to a central bureaucracy. No amount of camouflage or double talk should be permitted to fool us about it. Socialism in Ontario or anywhere in Canada CANNOT WORK.

HEPBURN

LABOR: Hepburn fought labor, the unions, throughout his several years as premier of Ontario. He knows that labor contributed to his overthrow and will not forget.

THE FARMER: Hepburn had all those years in office to do the things he now promises to the farmer ... he hindered and gave no help and he knows the farmer contributed to his overthrow. He will not forget.

CREDIT: Hepburn did not seriously interfere with Ontario's borrowing power, although he was treading on very thin ice. He did injure the credit of individual farmers.

PROMISES: Hepburn is great on promises. He muddles and when flying back and forth from one camp to another, reminds one of the battle of the birds and beasts.

GEORGE DREW

LABOR: The Progressive-Conservative party, under George Drew, has passed more good labor legislation in 18 months than the Hepburn party has ever passed. Social reforms, social security, social welfare, holidays with pay, limits on working hours, better wage standards and many other highly desirable acts, too numerous to mention herein ... all have been passed by your government, headed by George Drew, despite the interference and blocking attempts of the Socialist-Communist-Hepburn arrangement. The Progressive Conservative party is labor's best friend and with a clear majority for the next term there is substantially more that this party will be able to do for labor.

THE FARMER: Here again the C.C.F.-Hepburn-Communist block did what they could to interfere, but the Progressive Conservative party has kept faith with the farmer and will continue to do so. With a clear majority for the next term, the Progressive-Conservative party, under the leadership of George Drew, will accomplish much more in the interests of the farmer.

CREDIT: Under the Progressive Conservative government, the people's government, a 15 million dollar loan was recently and quickly refinanced in New York at an interest rate of 1 1/2 percent. This is the kind of credit necessary for a government pledged to social reform, social security and social welfare, and to an extensive rehabilitation program for our war veterans. Do not confuse social reform, social security and social welfare with socialism. On the one hand, with a Progressive Conservative government, we retain our freedom of action; on the other hand, under a C.C.F. socialist group, we lose our freedom of action.

PROMISES: The Progressive Conservative government, under the leadership of George Drew, substitutes policy and action for promises and assures the people of Ontario that there will be no discrimination against any class or race. Discrimination in Europe led to unthinkable crimes and disaster. We don't want it here.

TO SUPPORT A COMMON SENSE AND WORKABLE PLATFORM, WE IN NORTH YORK MUST BACK THE PROGRESSIVE CONSERVATIVE GOVERNMENT AND ON

Equality of Service and Sacrifice!

The King Manpower Policy —

"The Greatest Hoax ever perpetrated on a Nation."

"It is a national disgrace and a blight upon the good name of Canadian citizenship. To give political considerations priority over the nation's interest is intolerable and unforgivable."

John Bracken

Dominion-wide disunity is today the gravest danger facing Canada. The political abasement of the King Government's Manpower Policy reaped in wartime the seeds it sowed in peacetime.

"King or Chaos" of the 1940 election campaign has been King AND Chaos ever since. National unity, to which the King Government has paid only lip-service, was sold for political advantage in time of gravest national emergency.

THE PRICE CANADA HAS PAID for the unequal burdens of the King Manpower Policy is beyond measure. Army statistics tell the story. Tragically, the casualty lists bear mute witness to it.

THE PROGRESSIVE CONSERVATIVE PARTY HAS CONSISTENTLY CONDEMNED THE INJUSTICE OF A

PURELY POLITICAL MANPOWER POLICY. We do not hesitate therefore to describe the King Manpower Policy, and all the furtive political manipulations which characterized the administration of that policy, as a gross miscarriage of social, political and economic justice. As our forthright, progressive leader has said, it was — and is — "the greatest hoax ever perpetrated on a nation."

NATIONAL UNITY AND WELFARE MUST COME BEFORE NARROW POLITICAL ADVANTAGE. Divide-and-rule policies have no place in framing the basis for peace-time government. Only a party that will recognize equality of opportunity for all in time of peace as well as equality of service and sacrifice in time of war can solve the problem of national unity with the confidence of all Canadians.

It's 10 to 1 you are C.C.F.

Do You Believe That?

- the provision of decent jobs for all is the fundamental responsibility of our next government, and that the next Ontario government should make a job survey at once for postwar needs.
- the Ontario government, in co-operation with the municipalities, should undertake community planning and housing projects, and slum clearance, including low-cost family housing to cost, or rent at \$25 per month or less.
- every citizen should have complete health services available wherever he lives or whatever his income, including free treatment for cancer and venereal disease.
- immediate steps should be taken to set up county demonstration farms; and to safeguard our soil and forests from threatened destruction and to conserve them for the future.
- trade unions, as instruments of democracy and guardians of workers' rights, should be protected by legislation which outlaws company unions and guarantees union security.
- rural districts as well as urban should have the best schools and teaching and every student of ability should be able to attend university, irrespective of his parents' means.
- the farmer should be assured an adequate income and protected by law against the loss of his home and his land from causes beyond his control.
- Ontario's natural resources, especially in the north, should be developed as public projects along the lines of TVA, for the advantage of the whole community.
- the small businessman and storekeeper should be safeguarded against unfair practices of monopolies and big business.
- the Ontario government should co-operate with the Federal and other provincial governments in all matters to ensure national unity and prosperity.

OR THAT

Private profit-seeking interests should continue to exploit our natural resources; that our farmers and small business men should remain at the mercy of the monopolies; that industrial workers should be denied the right to belong to unions of their choice; and that social services should be left to charitable organizations instead of being the responsibility of the government.

Hal Pringle of Oshawa over a field of 20 riders, with CHIEF Chapman and Lance Pugh of Oshawa tied for second. All the Aurora riders who finished in the first ten, Chapman, Norm Foster, Frank Baile, Tommy Raeside, Bob Benville, Jim Hanson, Bert MacGill and Clarence Fisher, have either seen service or are still on duty, and that goes for the Oshawa boys too. Pringle went the distance in 58.10 and Pugh and Chapman, deadlocked for second, were only one-fifth of a second slower.

Aurora softballers had just lost the league opener 10-7 to Richmond Hill and the Simmons roster read as follows: Heaney, L.; Hodgins, S.S.; W. White, c.f.; Mitchaniuk, 3b.; Birchard, 2b.; R. White, 1b.; Pearce, r.f.; Cook, c.; Lowe, p. Every one of those fellows either joined the army or R.C.A.F. and four of them are still overseas. Richmond Hill sent six of the nine they used that year to the army too. Two are dead who played that game, Wes Heaney and Jimmy Cochran.

Camp Borden R.C.A.F. and Newmarket Redmen were ready to face the barrier, the Lake Simcoe softball league was in operation with teams from Pine Orchard, Mount Albert, Zephyr, Sharon, Willow Beach and Keswick. Barrie Collegians with Harry Couse and Pub Urrey as a battery had just defeated Midhurst Foresters. Bill Jelley had cleaned up the district track scholastic world and won a holiday at the O.A.C. camp at Orillia. Girls' softball was just about ready to start at Newmarket. Bill Boaks was setting the pace at the Aurora golf club.

Newmarket town hardballers had their eyes fixed on June 11, the opening of a four-club circuit. Case's Aces, Sisman's, Collier's Leather, Aurora town and Fluery Bissell were ready to go in the Aurora town softball league. Newmarket Redmen, led by the great Alex. Webster, didn't take too kindly to a write-up we had that week in which we called them "veterans" and forecast that they would be slower than usual. Bowling was in full swing throughout the district. Quite a picture back in 1940 wasn't it? Well next year will see a sports schedule bigger and better than that one or we miss our guess.

**Equality For Farmers
Said Prog. Con. Goal**

"Equality for farmers in the Canadian economy is one of the primary objectives of the Progressive Conservative party," Earl Toole, federal candidate for North York, told a campaign meeting that filled Vandorf hall May 23.

"We aim to do all humanly possible so that agriculture will be enabled to make the maximum contribution to the welfare of the Canadian people," continued Mr. Toole.

"The conservation as well as the development of the greatest heritage, the storehouse of wealth in the upper foot of the nation's soil, is not only important but vital to a continued progress in Canada. Equality for agriculture is a necessity if the Canadian way of life is to continue and flourish."

"It is our first and primary objective to correct Canada's greatest social inequality—the inferior economic position into which agriculture has been allowed to fall," declared Mr. Toole, who said that lack of leadership by the present administration at Ottawa has given rise to the dissatisfaction among farmers today.

"In our approach to the problem we shall enlist the co-operation of the organized farmers of Canada and of other representative men in industry and shall always consult with representative agriculture groups in the formation of future agricultural policies," he declared.

He stressed the importance of co-ordinating production and marketing, the appointment of a board for livestock marketing, action to prevent the collapse of farm prices, the necessity of expanding export markets and the provision of floor prices for farm products.

Maj. Lex Mackenzie, provincial Progressive Conservative candidate, outlined the 22-point "blueprint for progress" of the Ontario Conservative government.

"We are the only party in Ontario in a position to present anything beyond the blueprint stage," he declared in reviewing some of the history of the Drew administration with specific reference to the farm and rehabilitation program. Captain George Dix outlined some of what he called the dangers of socialism.

QUEENSVILLE

The Y.P.U. held a successful fireside service at the parsonage last Sunday evening. The meeting was in the charge of the president, Audrey Eves. Gladys Dew had the topic, Louise Morton and Ruth Denne sang a duet. Several letters were read from the boys overseas who had received boxes from the society at Easter. The society has decided to cancel their meeting on Sunday, June 10, so that the members may attend the great rally in Maple Leaf Gardens when the United church will celebrate the 20th anniversary of church union.

At the close of the meeting a rousing sing-song of favorite hymns was enjoyed and refreshments served. Twenty-five young people were present.

TO THE EDITOR

The Editor, The Era and Express: It has come to my attention this morning that our boys overseas have received election circulars signed by the "Newmarket C.C.F. Veterans' Committee."

I consider it to be my duty as a veteran to quote in public from our association's constitution, Statement of Principles and Policy, paragraph one: "This association shall be democratic and non-sectarian, and shall not be connected directly or indirectly with any political party or organization."

Nothing could be clearer than this statement.

If any of our comrades wish to express their political views in public through mail or otherwise, it is their own affair. But to sign their propaganda in such a way as to make it possible to interpret it as coming from the Newmarket veterans as an organization is, in my opinion, deceiving and improper to say the least.

A Veteran.
May 31, 1945.

The Editor, The Era and Express: My attention having been drawn to a letter from "A Veteran" objecting to a C.C.F. circular signed by the Newmarket C.C.F. Veterans' Committee, may I say that there was and is no intention of representing the signers to be a committee of the Newmarket Veterans' Association.

The committee is composed of five of the veterans of the last war who reside in Newmarket and district and who are members of the Newmarket branch of the C.C.F. The members of the committee considered that the title of the committee made it perfectly clear that they were speaking solely for their own committee.

The writer regrets that apparently some members of the Veterans' Association have placed an incorrect interpretation upon the C.C.F. letter to the servicemen overseas and wishes to assure them there was no intention of misleading the recipients of the letters.

PRE-NUPITAL PARTY
GIVEN BRIDE-TO-BE

Miss Lillian Daniels entertained at a tea and mock marriage in honor of Miss Evelyn Moreau on Monday evening. The tea, the largest of its kind in Newmarket in many years, was at the Soldiers' club.

The main room was beautifully decorated with spring flowers. The large tea table, spread with the banquet cloth and laid with silver, crystal, lighted taper candles, fine china and delicious foods, was a thing of beauty.

The table centre was a magnificent mirror fringed with pink tulle and apple blossoms. On the mirror rested a bowl of narcissus, tulips and lily-of-the-valley. A canopy of pink tissue petals with streamers reaching out to petal covered containers filled with lily-of-the-valley was suspended overhead.

The guests were received in the club by Miss Daniels and Mrs. R. D. Brown and shortly after went upstairs to the dance floor where a most interesting and amusing mock marriage took place.

Miss Doris Eves played the wedding march and other numbers on the piano. The bridal party, in comic costume, consisted of: the bride, Mrs. Tom Leitch; the bridesmaid, Mrs. Stan Smith; the maid of honor, Mrs. B. A. Budd; the flower girl, Mrs. Jas. Sloss; the bride's mother, Mrs. M. Hughson; the bride's father, Mrs. Ed. Robinson;

The groom, Mrs. W. M. Cockburn; best man, Dorothy Piper; ring bearer, Mrs. Basil McHale; groom's mother, Mrs. F. Edwards; groom's father, Joan Nesbitt; the minister, Mrs. J. R. Lockhart.

Following the unusual service, Mr. Alex Eves sang a parody on I Love You Truly.

The guests returned to the club rooms where a beautiful presentation of a cabinet of silver as well as a silver tea service and tray were made to Evelyn from her many Newmarket friends. Mr. Rolfe Mathew, Miss Morcan's fiance, was called on for a speech.

The bride's book, an exquisite piece of handicraft, was made by Mrs. Jack King and contains signatures of 116 guests at the party. A delightful lunch was served.

Mrs. Frank Courtney and Mrs. Alex Eves poured tea assisted by Misses Dorothy Piper, Gwen Lambert, Reta Moreau, Joan Nesbitt, Doris Eves, Jean Case,

LABOR and the C.C.F.

With the aid of the United Automobile workers, a C.I.O. union, Mr. Alles captured Essex North in August, 1943, and has sat with the C.C.F. group in the legislature. Since that election the U.A.W. unions have cooled toward Mr. Jolliffe and his party because they think it has failed to act in the interests of trades unionism, a sentiment which Mr. Alles set out in his letter of resignation to the provincial leader of the C.C.F.

"For some time it has been evident in Windsor and throughout Ontario that the C.C.F. party has been veering away from that of the trades unions. Political manoeuvring has led to disunity in the trade union movement at a time when it is more than ever necessary for labor to be united to lead the way and to make its influence count in the post war reconstruction period. Under the present C.C.F. policy, labor cannot exert its full influence to assure jobs and decent working conditions for all, an orderly reconversion to peacetime production and other very necessary reforms such as slum clearance and a housing program.

"... I believe it is somewhat ridiculous to voice the C.C.F. opinion that Canada is doomed to chaos and disruption and that the labor movement is doomed to failure unless a C.C.F. government comes into power. Such a narrow and defeatist viewpoint is dangerous to the labor movement. As I have stated in caucus I am unable to place party interests before the interests of labor as a whole and am unwilling to adhere to C.C.F. policy opinion, thereby encouraging reactionary elements to combine against the best interests of the people."

GEORGE DREW has proven himself a worker in the interests of LABOR and the FARMER. To support his constructive and common sense program, we in North York must back the Progressive-Conservative government and

THE FARMER and the C.C.F.

A book published in 1935, Social Planning in Canada, set out the principles of the Co-Operative Commonwealth Federation (C.C.F.) and it had the approval of the present federal leader, M. J. Coldwell. Its comments are pertinent at the present time.

"Interest on capital and rent on land should be maintained in socialized production as a necessary accounting device, but they will no longer accrue to private individuals as income."

An Alberta C.C.F. member, H. D. Ainley, in a radio broadcast on C.C.F. agricultural policy, January 19, 1943, is reported as making the following statement:

"The C.C.F. has considered socialization of land. There are many advantages to the farmer from some forms of socialization. We can learn from Russia in this respect. Social security cannot be obtained as long as we leave the control of our production in the hands of individuals."

At the annual convention of the British Columbia C.C.F. on April 17, 1943, the party went on record as favoring:

"Collective agriculture by the institution of methods of collective farming, such as have featured Soviet Russia's system, and by the creation of a provincial government monopoly in the purchase, processing and wholesaling of farm products, both those grown here and those imported."

A pamphlet of the British Columbia C.C.F. federal campaign committee contained the following statement:

"The C.C.F. believes that large scale farming with labor-saving devices will mean ... more real community life ... than can ever be the case under the present form of individual farming."

And here is a statement by B. E. Leavens, one of Mr. Jolliffe's C.C.F. supporters in the legislature, as reported in the Orillia Packet and Times, Oct. 28, 1943:

"Mr. Leavens said that while they (C.C.F.) did not intend to control the land — farmers could stay on their farms as long as they wished — but they could not will the property on their death to anyone else."

The shrewd people who live on Ontario farms will discern as straws in the wind these proposals to prevent land passing to private owners in the future; to prevent the collection of rent and to prohibit the transfer of farm property to another upon the death of the owner.
